Technical Talk on Internet Society

BELAGAVI

isocindiabengaluru.org

Introduction

The Department of **Computer Sciences and Artificial Intelligence** conducted a Technical Talk on “**Internet Society (ISOC) Awareness for Student Development.**”

The session was delivered by **Mr. Adarsh B.U**, Secretary, **ISOC India Bengaluru Chapter**.

He is currently working as a **Technical Solutions Consultant** at **COE-IOT, Happiest Minds Technologies**.

Mr. Adarsh has over 8 years of experience in IoT design and development for US and UK-based industries.

He has also been recognized twice as an “IoT Thought Leader” in the Indian IoT ecosystem.

ISOC and Awareness Session

Internet Society (ISOC) is a global charitable organization that advocates for an open, secure, and trustworthy Internet.

Mr. Adarsh created awareness among 3rd and 5th-semester students of CSE and CSE(AI) departments.

He explained ISOC's contributions towards Internet development and digital inclusion.

The session highlighted various student development initiatives conducted by ISOC.

Students gained insights into how ISOC supports technical growth and global collaboration.

Outcomes

The Tech Talk significantly enhanced students' understanding of modern technological advancements. It strengthened the connection between academic knowledge and industry expectations.

Students were motivated to pursue certifications, innovation projects, and research activities.

The session improved awareness about secure and ethical digital practices.

The event boosted confidence among students to explore emerging technology domains. Faculty members appreciated the practical exposure provided to participants.

Conclusion

The Technical Talk was informative and beneficial for the students.

It increased awareness about ISOC initiatives and global career opportunities.

The session motivated students to enhance their skills and pursue professional growth.
